

**Photographic Guide to the Exuviae of European Dragonflies** Christophe Brochard & Ewoud van der Ploeg

This list gives an overview of the species we have in collection or those we are still looking for.  
Variation (length, color, pattern or size and shape of spines...) within a single species is important in our project.  
Therefore we keep looking for any interesting or unusual variations even if a species is marked as complete.

Zygotera	Anisoptera
1 Calopteryx haemorrhoidalis	•Aeshna affinis
2 •Calopteryx splendens	•Aeshna caerulea
3 •Calopteryx virgo	•Aeshna crenata
4 Calopteryx xanthostoma	•Aeshna cyanea
5 Ceriagrion georgifreyi	•Aeshna grandis
6 •Ceriagrion tenellum	•Aeshna isocoles
7 •Coenagrion armatum	•Aeshna juncea
8 Coenagrion caerulescens	•Aeshna mixta
9 •Coenagrion hastulatum	•Aeshna serrata
10 •Coenagrion hylas	•Aeshna subarctica
11 •Coenagrion intermedium	•Aeshna viridis
12 •Coenagrion johanssoni	•Anax ephippiger
13 •Coenagrion lunulatum	Anax immaculifrons
14 •Coenagrion mercuriale	•Anax imperator
15 •Coenagrion ornatum	•Anax junius
16 •Coenagrion puella	•Anax parthenope
17 •Coenagrion pulchellum	Boyeria cretensis
18 •Coenagrion scitulum	•Boyeria irene
19 •Enallagma cyathigerum	Brachythemis impartita
20 Epallage fatime	•Brachytrion pratense
21 •Erythromma lindenii	•Callaeshna microstigma
22 •Erythromma najas	•Cordulegaster bidentata
23 •Erythromma viridulum	•Cordulegaster boltonii
24 •Ischnura elegans	Cordulegaster helladica
25 Ischnura genei	Cordulegaster heros
26 Ischnura graellsii	Cordulegaster insignis
27 •Ischnura pumilio	Cordulegaster picta
28 •Lestes barbarus	Cordulegaster trinacriae
29 •Lestes dryas	•Cordulia aenea
30 •Lestes macrostigma	•Crocothemis erythraea
31 Lestes parvidens	Diplacodes lefebvrei
32 •Lestes sponsa	•Epiteca bimaculata
33 •Lestes virens	•Gomphus flavipes
34 •Lestes viridis	Gomphus graslinii
35 •Nehalennia speciosa	•Gomphus pulchellus
36 Platycnemis acutipennis	Gomphus schneiderii
37 Platycnemis latipes	•Gomphus simillimus
38 •Platycnemis pennipes	Gomphus ubadschii
39 Pyrrhosoma elisabethae	•Gomphus vulgatissimus
40 •Pyrrhosoma nymphula	•Leucorrhinia albifrons
41 •Sympecma fusca	•Leucorrhinia caudalis
42 •Sympecma paedisca	•Leucorrhinia dubia
43	•Leucorrhinia pectoralis
44	•Leucorrhinia rubicunda
45	•Libellula depressa
46	•Libellula fulva
47	•Libellula quadrimaculata
48	Lindenia tetraphylla
49	Macromia splendens
50	Onychogomphus assimilis
51	Onychogomphus costae
52	Onychogomphus flexuosus
53	•Onychogomphus forcipatus
54	•Onychogomphus uncatus
55	•Ophiogomphus cecilia
56	•Orthetrum albistylum
57	•Orthetrum brunneum
58	•Orthetrum cancellatum
59	Orthetrum chrysostigma
60	•Orthetrum coerulescens
61	Orthetrum nitidinerve
62	Orthetrum ranssoneti
63	Orthetrum sabina
64	Orthetrum taeniolatum
65	Orthetrum trinacria
66	•Oxygastra curtisii
67	•Pantala flavescens
68	Paragomphus genei
69	Selisothemis nigra
70	•Somatochlora alpestris
71	•Somatochlora arctica
72	Somatochlora borisi
73	•Somatochlora flavomaculata
74	Somatochlora meridionalis
75	•Somatochlora metallica
76	Somatochlora sahlbergi
77	•Sympetrum danae
78	•Sympetrum depressiusculum
79	•Sympetrum flaveolum
80	•Sympetrum fonscolombii
81	•Sympetrum meridionale
82	•Sympetrum pedemontanum
83	•Sympetrum sanguineum
84	Sympetrum sinaiticum
85	•Sympetrum striolatum
86	•Sympetrum vulgatum
87	Trithemis annulata
88	Trithemis arteriosa
89	Trithemis festiva
90	Trithemis kirby
91	Zygonyx torridus

**The Dutch book is published!!!**  
We decided to expand the Dutch guide because of possible projects in further translations:  
Countries covered in this book: NL, B, GB, IRL, PL, D, DK, and L  
More information at:  
<http://www.knnvuitgeverij.nl/EN/webwinkel/0/0/15942>

The European book will be published in 2015  
This book will cover all European countries with exception or Russia. It will also not include the Azores, the Canary Islands, Madeira, and the small Island of Pantelleria

Status September 2013	Color	number of species
Complete. No more specimen needed, except for unusual variations	Green	79
Only a few specimens in collection, more specimen needed	Yellow	54
Not yet in collection, specimen needed	Red	0
♦ means that this species will also be described in the Dutch guide		
<b>Total</b>		<b>133</b>
